

# Structured Word Inquiry Workshop

Lincoln-Way High School Oct 24, 2017  
with Peter Bowers, PhD

Learn to investigate word structure and history to deepen understanding of key concepts and vocabulary in any subject area.

## Presenter

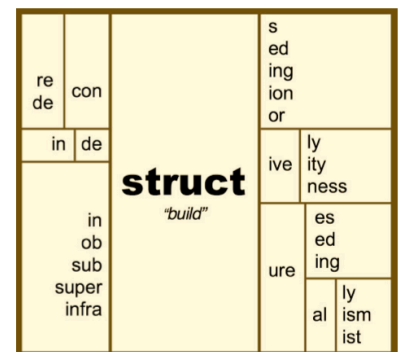

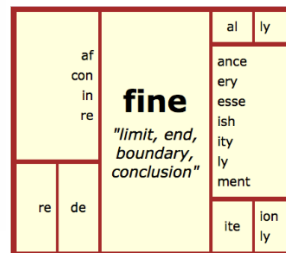

**Peter Bowers**, PhD, researcher and founder of *WordWorks* in Ontario, Canada taught upper elementary for 10 years and conducts workshops around the world. His research has been published in top educational journals. Click [here](#) for an introduction to this work and links to Bowers' published research.

Bowers often works with middle school and high school teachers and students to help them leverage structured word inquiry to deepen students understanding of content area and how to express that understanding.

### At this workshop you will:

- Use scientific inquiry to investigate the links between the spelling and meanings of words.
- Use powerful learning tools to investigate words you choose from your own area of study.
- Use a range of significant classroom/tutoring activities and strategies, adaptable for groups of any ability.

## The Matrix & Word Sum

Click [HERE](#) for more on a math lesson that addressed why it can be hard to define infinity that draws on the matrix above.

in + struct + ion → instruction  
struct + ure/ + ed → structured

See an archive of SWI lessons across grades and subject areas [HERE](#).
